Our Company

GRIMM INDUSTRIES, INC

Grimm Industries is an industry leader that has built a world class reputation for the manufacturing and distribution of our innovative plastic based point-of-purchase displays, premium promotional items and our drink-ware line-up for the beverage industry's consumer markets. Founded in 1968, we are continually forging new ground with proprietary technology in creating a line-up of high quality, low cost, cutting edge and market effective advertising displays.

Our SunCatcher Ornaments are our flagship product designed and engineered specifically for the gift and souvenir industries. Unveiled at both the Las Vegas Souvenir and Resort Gift show in September 2016 and the International Gift Exposition in the Smokey's in November of the same year, this product is a new take on a timeless classic and is the perfect gift item for retail in any market.

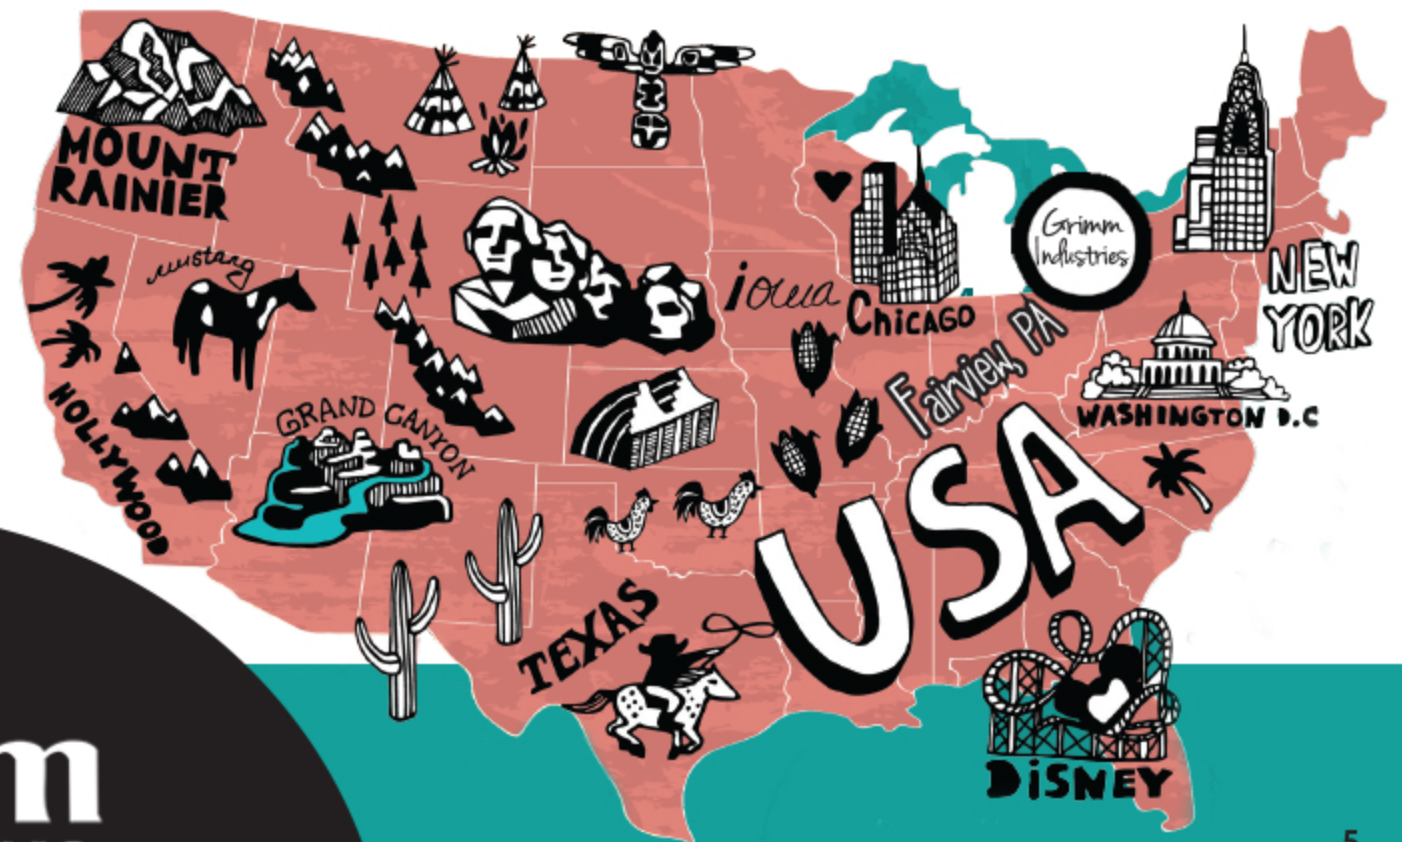

Each SunCatcher Ornament is injection molded out of a high quality acrylate plastic resin which is then hand trimmed and digitally printed direct to second surface with an automotive grade UV stable ink. This product utilizes our state of the art digital printers which produce not only the extremely high resolution of image but also allows each SunCatcher Ornament to be fully customizable as well.

This product is sure to bring joy and excitement as it can be used year round as not only an ornament to adorn any tree, but also as a suncatcher, which will fill the window of any home, school, or office with color and delight to all.

Made In The USA

We strive to provide the highest quality products made right here in the U.S.A., that meet our customers' specific needs, while providing a workplace that is safe, environmentally friendly, and an asset to the local community. Grimm Industries leadership team is focused on generating the newest innovative designs, while utilizing the latest technologies, to provide our customers with products that far surpass their expectations, exceed industry standards for both quality and safety, and arrive on time.
